

# Upcoming Changes to the 2019-20 ELPA21 Summative

## K-1 Writing Supplement Elimination

The ELPA21 Summative assessment no longer uses the K-1 Writing Supplement. The Writing domain will consist of all machine-scored items for Kindergarten and Grade 1.

The updated Writing domain results will still provide you with the same data and information as in previous years.

## Paper Ordering through TIDE will Continue

Similar to previous years, orders for paper and braille materials will be processed through TIDE.

The quantity of paper and large print materials your district will receive in its initial order is determined by the number of eligible students uploaded in TIDE by **November 12, 2019** that indicate the need for accommodated ELPA21 assessment materials.

An additional order window will open in TIDE on January 22, 2020 where you can order paper, large print, and braille materials.

Please contact the ELPA21 Help Desk if you have any questions.
